

My journey cards

Everyone's journey is different, and these cards are here to help you travel with greater confidence.

Select the cards that are useful to you, keep them in your wallet or purse, and show them to the driver when boarding. This is a simple way to communicate any assistance you may need during your journey.

Several cards also include space for a personal message, allowing you to tailor them to your own requirements. Please write clearly to help our drivers support you as quickly as possible.

whitebus

I am deaf

Thank you for being patient
